

Collectors Buy Ungummed Stamps

Postmaster General James Farley's decision to permit the sale of unguummed stamps of various issues on the market for the benefit of stamp collectors has caused a big boom in the market.

The sale will bring approximately \$5,000,000 to the government, since this type of stamp is in demand from collectors.

A considerable sum was created some time ago by the action of Farley in providing sheets of unguummed stamps for the market.

In order to satisfy the collectors, the postmaster general issued a new ruling, whereby collectors might obtain the more desired stamps from the Philatelic Agency of the postoffice department in Washington.

The following issue will be on sale March 25:

Table with 3 columns: Issue, Price, Price. Lists various stamp issues and their corresponding prices.

The variation in price is due to the number of stamps in each sheet or block, ranging from 120 stamps in a sheet and four in a block, to 100 in a sheet and 25 in a block.

Provision will also be made for first-day cover service on March 15 at the postoffice in Washington.

Collectors may send not to exceed five envelopes, self-addressed, for each of the 15 varieties which will be available in blocks of four, to the postmaster at Washington, D. C., with remittance preferably in the form of a money order payable to the postmaster to cover the value of the stamps.

Orders for these stamps of the new issue must not be included with requests for covers, as they must be obtained from the Philatelic Agency, in addressing the covers, a space three and one-half inches square must be left at the upper right hand corner for affixing the stamps.

The kind of stamps should be marked on each envelope.

Young Men To Take Up Electric Refrigeration and air conditioning. Prefer men now employed and mechanically inclined with fair space time in Torrance to learn some experts in installation and service work.

CHEVROLET MASTER DE LUXE MODEL ON DISPLAY HERE

Pictured above (left) is the new Chevrolet Master De Luxe coupe, and at the right is the new Master De Luxe sport sedan. Other models available in the new Master De Luxe line include sedan, coach, sport coupe and town sedan.

The new Chevrolet Master De Luxe model, strongly emphasizing beauty and style, was displayed for the first time yesterday in Torrance at the showroom of Ed. Thompson, Chevrolet dealer at 4001 Caville avenue, and in announcing much attention has been attracted to the new Master De Luxe.

Noting from the inquiries and requests received up to the present time, much interest has been shown by the Torrance and Home Improvement program sponsored by the Federal government and now here under the auspices of the Torrance High school, besides Mr. Westcott, instructor in agriculture and animal husbandry.

Mr. Westcott, instructor in agriculture and animal husbandry, is in charge of the course, which has already attracted many students.

Many of the time is given over now to problems of poultry raising. Some students wish to know if they are keeping the right type of birds, and while this is not the best time to call, they want to estimate the number of birds in their flock, and keep only the producers, which is a very difficult score.

Owing to excessive cold and rainy weather, flocks have been victims of cold and damp, and the problems arising from these conditions have been widely discussed. Since much of this trouble is due to faulty housing, important suggestions for changes and improvements have been made.

The instructors are anxious to have more inquiries, either in person or by mail, at the Westinghouse Company, 1934.

In addition to the membership of the Quota Buyers Club, Mr. B. J. Scott, proprietor of the Torrance Electric Shop, will receive a gold ring as a testimonial of his ability as a refrigerator salesman.

This ring is a special award, and is made only to those men who distinguish themselves by attaining the Inner Circle rating.

IMPROVEMENT program meets RESPONSE

The highest national honor that can be given to Westinghouse representative dealers has recently been conferred upon the Torrance Electric Shop, 1934 Caville avenue, local agents for Westinghouse refrigerators.

This club is a national organization composed of the Westinghouse refrigerator sales agents who achieve outstanding success in selling refrigerators over a year's period.

Mr. C. C. Congrove, manager of the household refrigerator division of the Westinghouse Company, in complimenting the local dealer on his success said, "A membership in the Inner Circle of the Quota Buyers Club is the highest honor that Westinghouse can confer on any salesman in the United States."

Widow Sues For Heavy Damages

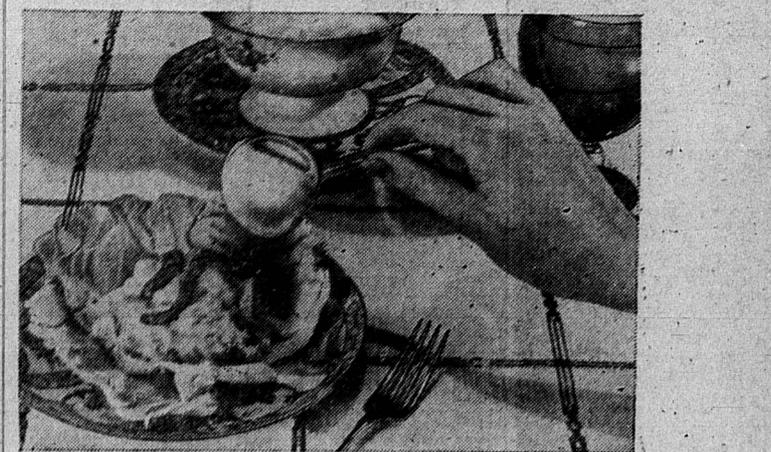

March 14 has been filed for trial of the \$50,000 damage suit brought by Mrs. Esther Parrish for the death of her husband, Hugh D. Parrish, of Long Beach, as the result of a traffic accident at Figueroa and 14th streets, August 29, 1933.

The General Patrons Corporation and W. L. Barough, driver of one of the company's automobiles, are named defendants in the action. Parrish was survived by his widow and two children.

BOSTON (U.P.)—There are 14,000 automobiles registered in the United States, according to a survey by the First National Bank of Boston. This represents 72 percent of the total for the world.

The instruction is not confined to poultry raising, but problems in all types of agriculture from examination and control of soils to disease and pest control, care of rabbit, pigeon and other small stock, bee-keeping, and all types of building construction, estimation, planning, are included.

THE GAS TO COOK YOUR MEAL COSTS LESS THAN THE MAYONNAISE ON YOUR SALAD

Only your most insignificant household expenses compare with your gas cooking bill. For instance, a small amount of mayonnaise costs more than the gas to cook your entire dinner. The average expenditure for cooking, by nearly a million users of gas in this region, is about 1 cent per meal per family. It is well to remember that natural gas is efficient, clean, and exceedingly economical for cooking and water heating, as well as for refrigeration.
